

# Littleton Explorers Weekly Learning

Letter      Date: 9<sup>th</sup> November

## Our Learning Journey

We have been very busy stretching our learning stars this week, learning about bonfire night, Diwali and Forest School.

The children had great fun moulding clay into a diva lamp and using gems to decorate it. Diwali is the festival of light and we talked about the way that decorations are used. The children also helped to make coconut ice.

Forest school was fantastic, with children exploring the area and having a brilliant time in the mud!

## Parents in Partnership

Thank you to all of you that came to parents evening.

## Star Learner

This week's star learner is Balint for showing great interest in his learning and getting stuck in at Forest School.
